Purpose/Aim

This section should present the scope and objectives of the study, state the problem, include a brief review of relevant literature, and provide a summary of the main results.

Methodology

The methodology should be clearly stated, along with the statistics used to analyse data, and described in sufficient detail with appropriate references.

Results

Results must be described clearly and accompanied by no more than two supporting figures/tables to explain the main results. If significant results have not yet been obtained by the time of abstract submission, author(s) should provide a brief overview of expected results.

Conclusions

Include principles and generalizations from the results, any exceptions/problems with the findings, value to the target audience (i.e. grape growers, winemakers, marketing/sales personnel), and recommendations.

References

References should be in alphabetical order according to the Harvard System.

Acknowledgements

Include the funding organisation and grant name, and people who are not co-authors but assisted with the study.

Keywords

Five keywords that should be written in font size 11 and separated with commas.
